10AM  
- 2PM

## Kintyre Smokehouse

The Kintyre Smokehouse, part of MacMillan Foods, is a family run business in Campbeltown, Argyll, who deal in high quality smoked fish, and shellfish. The Smokehouse, also known as the Old Smokehouse, began as a traditional kipper house which Archie purchased 30 years ago, reclaiming it from certain demise; he has a burning passion for melding the traditional techniques of the trade with modern technology in order to create a unique range.

We supply wholesalers and hotels across Britain and provide an on-line shop which reaches our customers at home and abroad. Our product range includes: Full flavoured cold smoked salmon, Hot roasted salmon, Smoked Scallops, Kippers, smoked haddock, and our award winning Smoked Mussels (Moules Mentales). Archie's latest venture has been to lightly smoke local Gigha, Atlantic Halibut which has proved to be a delicious product and much in demand.

We are responsible for 90 per cent of the Scottish production of Smoked Mussels and supplied the Smoked Mussels, Hot Roast Smoked Salmon and Smoked Scallops to the Moët enclosure at the Ryder cup, Gleneagles 2014.

We gained the Carbon Trust Award in 2012, are SALSA accredited and have been a part of the Farmer's Markets in Glasgow for many years building up a wonderful clientele whom we would like to thank for coming along in all weathers!

Jane

## Chairmans Corner

I'd would like to inform all traders that the next meeting of the Glasgow Farmers' Market Producers Group will take place after the market on Saturday 25th July.

# FARMERS NEWS MARKET

MANSFIELD PARK, PARTICK

EVERY 2<sup>ND</sup> & 4<sup>TH</sup> SATURDAY OF MONTH

10AM  
- 2PM

## A short history

Established in 2001 and originally known as the Partick farmer and producer market, this market was held on the red chip football pitch within the metal boundary fence that preceded the current park design.

This enclosed area meant you could back up to the stall with your van and leave it there for support throughout the event however in dry weather the red chip blew around as dust and in the wet became a sticky red mud.

So eventually a new design for Mansfield Park was proposed with the farmers and producers contributing to the planning stage.

This would have a smaller enclosed play area, a central green space and a purpose built market space next to Dumbarton Road. The new design that is still in place today allowed for a central road through the park to allow van access to ensure easy unloading as well as underground power being installed.

Dowanhill Primary School provided our temporary home while the development of our own purpose built space took place. This proved an effective short term solution to keep the market trading until our relocation to the new and improved Mansfield Park in May 2008.

The market has since gone from strength to strength and with some new improvements scheduled in the near future we envisage a

continuation of this success for many years to come.
